

Manufacturing possibilities

Straight edging

Edging	Melamine, PVC, ABS, or polypropylene in different thicknesses.
Edging finishes	Straight, bevelled, curved
Thickness	10 to 40 mm
Length	240 to 3660 mm
Width	195 to 1400 mm (60 mm minimum width for one-side edged panels)
All types of slots and grooves at no additional cost	

Postformed

Thickness	16 to 30 mm (according to profile)
Length	maximum 3660 mm
Width	150 to 1000 mm

Shaped edging

Base board	Fimaplast / Fibraplast
Curves available	30 mm minimum interior radius
Thickness	16 to 40 mm
Length	700 to 4200 mm
Width	400 to 1400 mm
Edging	Melamine, PVC, ABS or polypropylene in different thicknesses
Edging finishes	Straight, bevelled, curved

Drilling options

Thickness	10 to 40 mm
Length	230 to 3000 mm
Width	80 to 800 mm
Almost any machining requirement is feasible thanks to both in-line drilling (system 32) and also "point to point".	
The pieces may be supplied pre-dowelled.

INDUSTRIAL CHALLENGE :

FINSA

In a sector in which the market is more and more demanding, technology and innovation are definitively strategic key factors. In that sense, FINSA, a leading company in the wood processing sector, demonstrates once again its capacity to adapt taking on this new industrial challenge. Thus, we are increasingly investing in new technological, human and logistical resources... **Finsactiva** springs from this natural evolution of the panel industry.

Finsactiva satisfies all the technological and working requirements in order to meet all the melamine processing needs of the furniture industry, either tailored to a customer's specification or through our wide range of standard products.

finsactiva

TECHNOLOGICAL CHALLENGE:

Last generation squaring and edgbanding line

throughfeed NC machines for boring and boring/dowel inserting

CNC machine centre

Today's market for furniture manufacturing forces upon the industry the need to concentrate their efforts in INNOVATION, DESIGN, SERVICE AND MARKETING... Thus, these companies entrust production to other specialised and technologically advanced companies.

Finsactiva has taken on this challenge. We have the most advanced means of production and the most qualified human resources in order to adapt our processing capacity to any specific requirements from our clients.

In **Finsactiva** we work for you.

COMMERCIAL CHALLENGE:

Edged panels

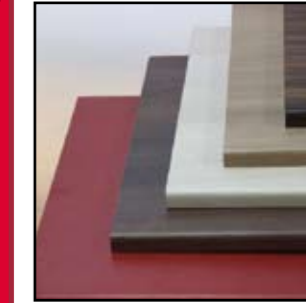

Machined boards

Finsactiva offers a wide spectrum of goods - processed or semi-processed products - focused on the professional sector and created in order to facilitate your work.

Through our extensive commercial network we are ready to take on the challenge to adapt and develop, in close cooperation with you, any project required by your company.

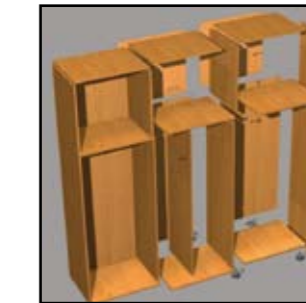

Postformed doors

Worktops

furniture kits

Machined boards for wardrobe

kitchen carcasses
